

ESD

G-NONE PAD™

ESD

ESD pads are here !!!

Zero Sliding, High Friction, Zero Physical Damage

- **Tunable ESD resistance : $10^6 \Omega \sim 10^{10} \Omega$**

Insert type

Screw type

Adhesion type

O-ring type

Contamination Free, Very low Particles Generation, Easy to clean (IPA wiping)

- *Extensive life-time performance (over 1 year lifetime)*
- *High temperature substrate handling available (~270 degree C)*
- *Various dimension and design available, Easy to install (dual side tape)*
- *Tunable adhesion performance depending on applications.*
- *Comply Semiconductor Industrial Requirements*

Applications

- *Semiconductor Wafers*
- *Flat Panel Display Industry*
